Nelahozeves Castle

One of the most beautiful Renaissance buildings in Bohemia, Nelahozeves Castle took over sixty years to construct (1553-1614). Originally built for Florian Griesbeck von Griesbach (1504-1588), a highly educated Tyrolean aristocrat who served as private secretary and close adviser to Emperor Ferdinand I, the Castle came into the hands of its present owners – the Lobkowitz family – in 1623.

Nelahozeves Castle

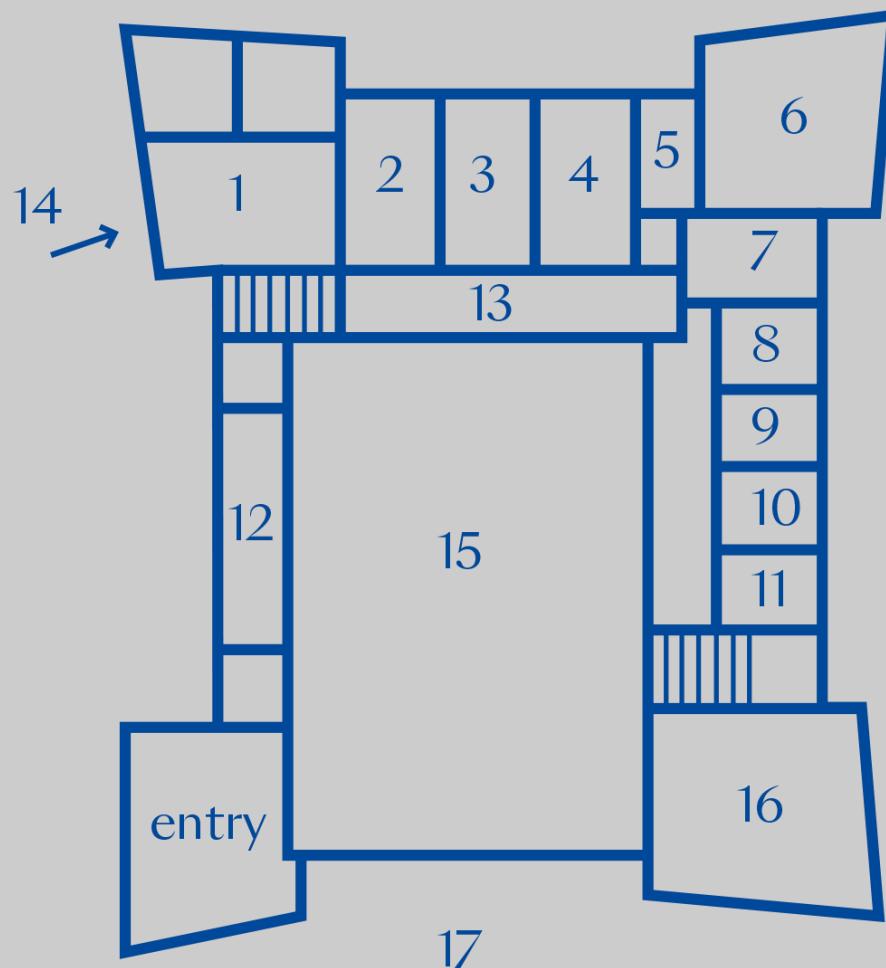

The Lobkowitz Collections is the oldest and largest private art collection in the Czech Republic. Highlights from The Collections include world-famous paintings by Brueghels, Cranach the Elder and Younger, Canaletto, Rubens and Veronese; decorative arts from the medieval, Renaissance and Baroque periods; ceramics from the 16th century; preserved arms and musical instruments, unique musical scores and autographed manuscripts from many of the greatest composers, including Beethoven and Mozart.
